## **Attendee Guidelines**

To ensure a great experience throughout MJBizCon, please take note of these show policies:

#### No Badge = No Fun!

All participants at the Marijuana Business Conference & Expo must have their official show badge visible on their front torso at all times. There are no exceptions to this rule for any participant.

**REPLACEMENT BADGES:** Replacements are available. Participant must show a photo ID matching the registration, and a **\$50 reprint fee will apply**. Original badge will be deactivated. Participant may need to wait in line for a reprint and risk missing key conference activities while the reprint is processed.

#### **Cannabis Use at MJBizCon**

Per MJBizCon's agreement with the host venue, and in accordance with the professional nature of the event, the use, distribution or sale of any products containing THC is strictly prohibited at the event, in the exhibit hall, conference sessions, or any other function space where the event is conducted. Any individual who possesses, transports or consumes any THC-based products is solely responsible for his/her compliance with local and state regulations.

#### **After-Hours Events**

If you're participating in affiliated events or afterparties, be aware that the Nevada Gaming Control Board has recently applied its no-tolerance policy regarding narcotics distribution to all bars and nightclubs in all gaming facilities.

The Gaming Control Board conforms to federal law concerning narcotics, including cannabis, and has jurisdiction over all gaming properties in Las Vegas. This includes, but is not limited to, the Rio All-Suites Hotel & Casino. The use or possession of cannabis is prohibited at gaming properties. Attendees are individually responsible for their compliance with all state and local laws as well as the rules and regulations of the venues they are in.

## **From the Publisher**

#### The Epic Event

At the start of 2016, I used my publisher's letter in Marijuana Business Magazine to discuss the epic journey ahead for the year. And epic journeys must end with a destination....the definitive epic event of the year, the Marijuana Business Conference & Expo.

I truly believe that well-executed tradeshows are critical to the health of any industry. It is people, not companies, who do business. The convergence of an industry's members at a set

destination for intense face-to-face interactions catalyzes commerce – commerce critical to the success of the companies that in turn create jobs, fund change, pay taxes and drive profits. Tradeshows create a forum for the exchange of ideas, best practices, innovation and leadership to move an industry forward.

I have heard people say of the cannabis industry: "There's an event every week!" and that they suffer from "tradeshow fatigue." Undoubtedly, the competition in cannabis events is as fierce as in every channel of the industry.

However, many of these events come up short of the big promises they make: the most important, the largest, the only place the cannabis industry does business. Others claim to be business-only, yet market to consumers on billboards and bus stops in an attempt to fill the hall. Marketing claims are easy. Delivering results takes hard work, integrity and a commitment to your customers' success before claiming your own. Bottom line: There can only be one must-attend event.

And you, the industry, have made it clear that the Marijuana Business Conference & Expo is the industry's tradeshow.

This year's fifth annual event will host more attendees and exhibitors than any other cannabis business event held. Ever. Over the coming three days, the halls of MJBizCon will see more deals done, products launched, partnerships forged and capital invested than at any other time of the year.

We thank you for the trust you put in *Marijuana Business Daily's* editorial team, which curates the world-class programming at this event. We thank you for making the Marijuana Business Conference & Expo the fastest-growing tradeshow in America as awarded by *Tradeshow Executive*.

But most of all, we thank you for the privilege of serving your businesses. And this is what I love the most about tradeshows: The success of the event is absolutely dependent on your success at the event.

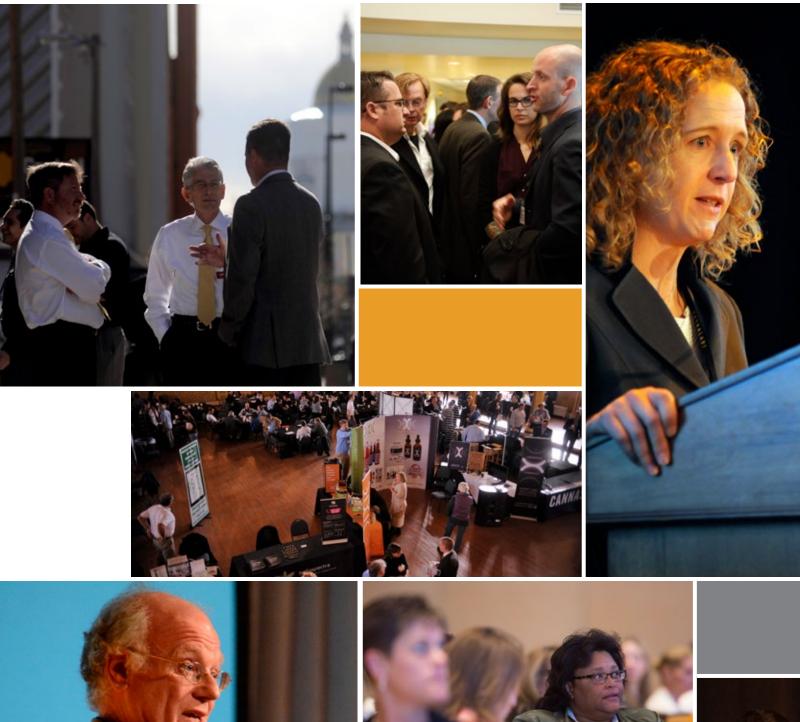

We look forward to hearing your success stories that happen here.

Onward and upward,

George Jage

President & Publisher, *Marijuana Business Daily* GeorgeJ@MJBizDaily.com

## Also in smaller quantities

When it comes to horticultural projects you want to deal with professionals. People that know horticultural lighting inside out, and have proven that dealing with the most demanding growers on this planet. It's not about the fancy colors of your fixture, nor the initial price (though that is important too): it is about reliable solutions that work and offer you a great return on investment. You need solid advice, accurate light calculations, excellent service and above all: professional products.

So whether you need 40,000 fixtures in a huge greenhouse (or a few less), sunlight simulation in a research climate room or efficient lighting in a production climate room: you want to deal with a company that will exceed your expectations and has a proven track record delivering these projects. Contact us and experience how 30 years of innovation makes the difference. Let's talk real business. Come visit us at booth 301

## **Full Agenda & Session Descriptions**

Wednesday, November 16 • GENERAL SESSIONS/KEYNOTES • Location: Amazon

#### 9:00am - 9:40am

#### **KEYNOTE • Editor's Insights: Industry Analysis & Forecast**

Get an exclusive look at where the cannabis business is headed in 2017 (and beyond.) Includes exclusive financial data and behind-the-scenes insights from the industry's top analyst.

#### 9:40am - 10:30am

### **KEYNOTE** • Activity is Not Productivity: Tools to Optimize Your Cannabis Workday

Growing a business in the explosive cannabis industry is very different than running a company in an established industry. You must maximize every single hour of your business day. Discover practical tactics to stay on top and thrive – rather than being swept away.

#### 10:30am - 11:20am

#### Win, Lose or Draw: 2016 Election Postgame

The 2016 election was one of the most significant in the history of cannabis. A panel of industry insiders on the front lines of the legalization efforts will reveal how the results may play out nationally as well as in key local markets. Remember: once an election is over, the industry upheavals and opportunities have just begun..

#### 11:30am - 12:10pm

#### **Caught on Tape! Exclusive Cannabis Customer Insights**

Ever wonder what your customers REALLY think about your cannabis business? Attend this session for educational and entertaining revelations about what typical customers and patients really think about retailers, infused products, services and other offerings in the cannabis marketplace. If you're wondering why you're not making the sales you hoped for - or if you are about to launch a new offering - this is the session for you.

#### **Cassandra Farrington**, CEO *Marijuana Business Daily*

**Chris Walsh**, Editorial Director *Marijuana Business Daily* 

#### **Juliet Funt**, CEO *WhiteSpace at Work*

#### **Dale Sky Jones**, Executive Chancellor *Oaksterdam University*

**Rob Kampia**, Executive Director *Marijuana Policy Project* 

**Ethan Nadelmann**, Founder & Executive Director *Drug Policy Alliance* 

**Tick Segerblom**, State Senator *Nevada Legislature* 

John Bizarre, Host & Producer V2 Productions

**Derek Richards**, Host *V2 Productions* 

#### 12:10pm - 1:00pm

#### **KEYNOTE** • No Filter: Penn Jillette on Marijuana

Marijuana legalization advocate and Emmy Award winner Penn Jillette is no stranger to speaking his mind on sensitive issues including creationism, animal rights and immigration. He'll turn his focus to marijuana legalization in a one-of-a-kind keynote presentation at the 5th Annual Marijuana Business Conference & Expo. Join Jillette for a brutally honest and informed conversation from his perspective as both a non-user and a Libertarian. He'll explore national cannabis legalization and how he feels it ties into business, culture and politics. Jillette is one half of the world-famous magic duo Penn & Teller.

#### Wednesday, November 16 • WORKSHOPS / ROUNDTABLES / LOUNGES

#### 1:00pm - 1:50pm

#### **Location: Palma**

**Location: Palma** 

#### Tax Workshop: Easing the 280E Blow

Taxes are one of the biggest issues facing marijuana retailers today, thanks to the dreaded 280E section of the U.S. tax code. In this workshop, participants will get an in-depth look at strategies they can use to lower their tax bill and, in turn, boost their profit margins. Learn about intellectual property issues, why entity types matter and techniques to segregate operations to maximize your deductions. *Seating is very limited, and pre-registration is required with no additional charge to Main Conference attendees*.

#### 2:00pm - 2:50pm

#### Tax Workshop: Easing the 280E Blow

Taxes are one of the biggest issues facing marijuana retailers today, thanks to the dreaded 280E section of the U.S. tax code. In this workshop, participants will get an in-depth look at strategies they can use to lower their tax bill and, in turn, boost their profit margins. Learn about intellectual property issues, why entity types matter and techniques to segregate operations to maximize your deductions. *Seating is very limited, and pre-registration is required with no additional charge to Main Conference attendees*.

#### 3:00pm - 3:50pm

#### Location: Miranda

#### **Retail Networking Lounge**

Here's your opportunity to connect with retail professionals from around the nation in a casual, unstructured networking setting. You'll build meaningful relationships within the industry and create a competitive advantage for you and your business. No advance registration required – drop in and leave as you please.

**Dean Guske**, Owner *Guske & Company* 

#### **Dean Guske**, Owner *Guske & Company*

**Penn Jillette**, Libertarian, Author, Entertainer

#### Wednesday, November 16 • WORKSHOPS / ROUNDTABLES / LOUNGES

#### 4:00pm - 4:50pm

#### **Location: Palma**

#### **Retail Roundtable**

In this intimate peer-to-peer learning session, dispensary and rec shop owners will discuss some of the biggest issues facing their businesses today, including banking, advertising, testing and real estate. Participants will share their experiences and advice on these topics with other retail cannabis executives. The Retail Roundtable is for experienced retailers who are currently employed by an operating dispensary or recreational cannabis store – NOT vendors, consultants or entrepreneurs who hope to open one. *Seating is very limited, and pre-registration is required with no additional charge to Main Conference attendees.* 

#### Thursday, November 17 • RETAIL • Location: Amazon A

#### 9:00am - 9:50am

#### **Retail Intel: Latest Marijuana Sales Trends**

What's hot and what's not in the retail cannabis world? Find out what the latest data says about sales trends in the cannabis industry, including everything from concentrates and high-CBD products to edibles. Executives from cannabis-related data companies will dive into what's selling well in specific states – including Arizona, California, Colorado, Illinois, Oregon and Washington – and offer the national picture as well. This session will also explore trends tied to pricing customer demographics and other areas of the industry.

#### 10:00am - 10:50am

#### **Retail Fast Tracks:**

- The Art of the Upsell: Boosting Average Spend
- How to Cut Costs at Your Dispensary

In the first session of the Retail Fast Track, you'll learn how to increase the average purchase amount at your dispensary or rec store to help boost revenues. You'll also gain insight on how to train your budtenders to upsell. In the second session, you'll discover tried and true (and often overlooked) ways to lower costs at your dispensary and improve the bottom line. These 25-minute sessions will offer actionable advice you can take back and implement at your retail cannabis store immediately.

#### 11:00am - 11:50am

### Biggest Challenges Facing MJ Retailers – And How to Overcome Them

From regulatory compliance to managing cost of goods sold, cannabis retailers face nonstop challenges. In this session you'll get a rare behind-the-scenes look at which obstacles one of America's most successful dispensaries faces currently – and how the management team attacks everything from inventory control and growth reinvestment to employee culture clashes and the possibility of recreational marijuana legalization.

**Roy Bingham**, CEO & Co-founder *BDS Analytics* 

**Cy Scott**, CEO *Headset* 

**Rachael Speegle**, Director of Operations & Registered Nurse *The Verdes Foundation* 

Matt Walstatter, Founder & CEO Pure Green

**Andrew DeAngelo**, COO Harborside Health Center

#### 12:00pm - 12:50pm

#### **Retail Debates:**

- On-the-Job Consumption
- Staying Small vs. Going Big
- Should Dispensaries Cater to Rec Users?

Get ready for passionate discussions about some of the most controversial topics in retail cannabis management. In the first debate, two marijuana professionals will square off on whether medical marijuana businesses should allow employees who are also MMJ patients to consume during work hours. The second debate will explore the benefits and drawbacks of staying small vs. developing a larger operation or a chain of storefronts. This session will wrap up with a debate on if medical cannabis dispensaries should actively target rec users/patients using primarily for recreational reasons via marketing and advertising or keep a strictly medical focus.

**Becky DeKeuster**, Co-founder *Wellness Connection of Maine* 

Frank Hawkins, Jr, Owner Nevada Wellness Center

**Wanda L. James**, CEO *Simply Pure Dispensary* 

**Bruce Nassau**, CEO *Tru Cannabis* 

Lilach Mazor Power, Founder & Managing Director Giving Tree Wellness Center

Nicole Van Rensburg, Partner Midwest Compassion Center

#### Thursday, November 17 • INDUSTRY INSIGHTS • Location: Amazon G

#### 9:00am - 9:50am

#### Lessons Learned from Licensing Hits & Misses: A Chain Reaction Panel

Winning a cannabis business license isn't easy, and often there's no obvious differentiator between the applicants who emerge as winners and those who ultimately lose out. In this session, a panel of experts – including the former director of the Illinois MMJ program, a consultant and a successful applicant – will interview each other about what works and what doesn't when applying for a license. You'll walk away with a better understanding of what could put you over the top, or sink your chances. This session is ideal for existing business owners applying for retail, cultivation, processing and producer licenses in new markets as well as entrepreneurs who are making their first foray into the industry.

**Diane Czarkowski**, Founding Partner *Canna Advisors* 

**Amy Margolis**, Owner & Attorney *Margolis Legal* 

**Bob Morgan**, Special Counsel *Much Shelist, P.C.* 

**Hillary Peckham**, COO *Etain* 

**Tyler Stratford**, Operations Consultant *MJ Freeway* 

#### 10:00am - 10:50am

#### Case Studies: How I Landed \$1M+ in Financing

Seeking money to expand your marijuana business or launch a new one? Hear from two cannabis entrepreneurs who have successfully landed \$1 million or more in financing. They'll talk about how they found investors, pitched their companies and negotiated their deals. You'll also get an idea of the terms of their financing arrangements, including which interest rates or equity stakes they offered to secure money.

**Truman Bradley**, CEO Seed & Smith Cannabis

**Ryan G. Smith**, CEO & Co-founder *LeafLink* 

#### 11:00am - 11:50am

#### Small Business Survival Strategies in Advance of Big Marijuana

They're coming. Big industries – agriculture, pharmaceutical, software ... possibly even tobacco and alcohol – are poised to enter the marijuana sector in the coming years. At the same time, some large companies are emerging within the marijuana space itself, developing chain stores, opening massive grows and expanding into multiple states. Learn how to not only survive, but also to thrive in the long run as the cannabis industry evolves and powerful new competitors enter the scene.

#### 12:00pm - 12:50pm

#### The Big Shift: Transitioning from MMJ to Rec

Each year the number of states that legalize adult-use cannabis goes up. So how do existing medical marijuana businesses transition to the brave new world of recreational cannabis? In this session, you'll learn from business pros in Colorado and Washington who have already been through the shift. They'll shed light on the differences between the medical and recreational markets, share advice on how you can prepare your business for the transition and identify some of the biggest opportunities in the rec industry.

**Tim Cullen**, CEO & Co-owner *Colorado Harvest Company* 

Rachel Cooper, Director of Operations Monkey Grass Farms

**Amanda Gonzalez**, CEO Southwest Alternative Care

#### Thursday, November 17 • INFUSED PRODUCTS AND CULTIVATION

#### 10:00am - 10:50am

#### **Location: Palma**

Jim Makoso, Co-founder & Vice President Lucid Labs

Noah Novello, Manager of Extractions LivWell

### Infused Products Workshop: Extraction Processes, Procedures & Techniques

An increasing number of marijuana businesses – and particularly infused products and concentrates companies – are getting into the extraction game themselves rather than relying on third parties. This workshop will cover trends pushing extraction development and give attendees an overview of the considerations, challenges and methods of extraction with a focus on specific processes and techniques available to maximize throughput, efficiency and safety. *Seating is very limited, and pre-registration is required with no additional charge to Main Conference attendees.* 

#### 11:00am - 11:50am

#### Location: Palma

#### Cultivation Workshop: Reducing Energy Use & Lowering Costs Through Sustainability

Sustainability is the big buzzword in cannabis cultivation these days, but few growers actually know how to apply it to their current operations, whether they focus on indoor, outdoor or greenhouse methods. In this workshop, you'll learn advanced methods for reducing your energy use and carbon footprint from both a technology systems and operational strategy perspective. You'll also get an overview of renewable energy options for your grow. *Seating is very limited, and pre-registration is required with no additional charge to Main Conference attendees.* 

**Matthew Gaboury**, Vice President *Cultivar* 

Kathleen Hokanson, CEO & President Koan Energy Consultants

#### 12:00pm - 12:50pm

#### Thursday, November 17 • INFUSED PRODUCTS AND CULTIVATION

#### 3:00pm - 3:50pm

#### **Location: Palma**

#### **Infused Products Roundtable**

In this intimate peer-to-peer learning session, infused products and concentrates professionals will discuss some of the biggest issues facing their businesses today, including packaging and labeling, CBD products, marketing and consistency. Participants will share their experiences and advice on these topics with other infused products and concentrates executives. The Infused Products Roundtable is for experienced processors who are currently employed by an operating infused products company – NOT vendors, consultants or entrepreneurs who hope to open one. *Seating is very limited, and pre-registration is required with no additional charge to Main Conference attendees*.

#### 3:00pm - 3:50pm

#### **Location: Miranda**

#### **Infused Products Networking Lounge**

Here's your opportunity to connect with Infused Product Company professionals from around the nation in a casual, unstructured and intimate networking setting. You'll build meaningful relationships within the industry and create a competitive advantage for you and your business. No advance registration required – drop in and leave as you please.

#### 3:00pm - 3:50pm

#### **Location: Miranda**

#### **Cultivation Networking Lounge**

Here's your opportunity to connect with Cultivation professionals from around the nation in a casual, unstructured and intimate networking setting. You'll build meaningful relationships within the industry and create a competitive advantage for you and your business. No advance registration required – drop in and leave as you please.

#### 4:00pm - 4:50pm

#### **Location: Palma**

#### **Cultivation Roundtable**

In this intimate peer-to-peer learning session, cultivation professionals will discuss some of the biggest issues facing their businesses today, including lighting, climate control, pest management strategies and improving yields. Participants will share their experiences and advice on these topics with other growers and cultivation site executives. The Cultivation Roundtable is for experienced cultivators who are currently employed by an operating cultivation site – NOT vendors, consultants or entrepreneurs who hope to open one. *Seating is very limited, and pre-registration is required with no additional charge to Main Conference attendees.* 

#### 9:00am - 9:50am

#### New Cultivation Technologies: What's Worth It, What's Not

From lighting to climate control to self-contained grow pods, cannabis cultivation is seeing a flurry of technological advancements. But it can be difficult to determine what's worth the investment and what will have a big beneficial impact on your operation. In this session, several cultivation experts will discuss which technologies they think growers should be pursuing and which ones will play a big role in the industry down the road.

#### 10:00am - 10:50am

#### **Cultivation Debates:**

- Greenhouse vs. Indoor
- Craft vs. Large-Scale
- Is It Time to Rename Strains?

Get ready for passionate discussions about some of the hottest topics in cannabis cultivation management. In the first debate, you'll hear one professional lay out an argument for why greenhouse is the way to go, while another will make the case for indoor grows. The second debate will examine the benefits of staying small and focusing on "craft" cannabis, vs. the benefits of developing a large-scale grow that can mass produce a handful of popular strains. This session will wrap up with a debate on whether the industry should come together to rename strains like AK-47 and Girl Scout Cookies to make labels more appealing to the general public.

#### 11:00am - 11:50am

#### **Chemical Warfare: Pesticides & Organic Cultivation**

Battle lines are being drawn in the cannabis industry over what is – and isn't – acceptable when it comes to using chemicals and general pesticides on plants. At the same time, an increasing number of states are seeking to define what chemicals should and shouldn't be allowed in commercial cannabis cultivation. In this session, experts will discuss the current state of pesticide use in the marijuana industry, talk about how to approach this issue at your grow and explore ways to use organic methods.

#### 12:00pm - 12:50pm

#### Ask the Expert: Q&A With Cultivation Pioneer Kyle Kushman

Kyle Kushman is one of the most recognizable names in marijuana cultivation, having won 13 Medical Cannabis Cups awards over a 30-year career tied to growing cannabis himself and advising others on cultivation. In this session, Kushman will discuss his thoughts on many aspects of cannabis cultivation, from growing organically to the biggest challenges facing the industry. He'll also share his tips and tricks for optimizing a grow. The audience will have ample time to ask questions. Alex Cooley, Founder Solstice

Moderator: Shivawn Brady, CEO Seva Crop Consulting

#### 9:00am - 9:50am

#### **Infused Products Fast Tracks:**

- Tips for Sourcing Ingredients, Trim and Oils
- Prepping for High-Demand Periods

In the first session of the Infused Products Fast Track, you'll learn advanced methods for procuring raw materials through third parties. Get insight into you how can establish long-lasting relationships with these companies, negotiate better prices and ensure you're getting quality ingredients, trim and oils. In the second session, you'll learn how to anticipate demand for busy periods like 4/20 to ensure you don't run out of product – or overproduce and get stuck with a warehouse of unsold inventory.

#### 10:00am - 10:50am

### Market Research: Using Patient Insights to Develop & Brand New Infused Products

Don't invent new infused products in a vacuum! Three experts will share hands-on tactics they have used to find out what new types of products patients are eager to purchase. This session is equally useful for R&D pros as well as your branding expert. Patient-centric development and branding is the safest and strongest road to success.

#### 11:00am - 11:50am

**Infused Products Fast Tracks:** 

- Boosting Out-of-State Expansion via Partnerships
- Scaling Up to Mass Production

Want to expand your infused products or concentrates company into new states and develop a national footprint but unsure how to do so? Consider joining forces with brands in other states that you might otherwise compete with. In the first session, you'll discover the key components of the "coopetition" expansion model, including managerial leadership, trust development, interlinking branding and operational efficiencies. In the second session, you'll learn about strategies that will help you move from a small-scale production facility to a larger operation that can churn out mass amounts of chocolate bars, gummy bears and other infused products. Discover how much it could cost to scale up, what equipment is ideal for mass production and how you should prepare for such a move.

#### 12:00pm - 12:50pm

#### Around the Bend: Challenges, Regulations & Innovations

Infused products and concentrates companies are increasingly facing some of the most onerous regulations in the entire marijuana industry – covering everything from packaging and potency to dosing and marketing. On the bright side, they're also poised for rapid growth as demand for alternative forms of cannabis consumption grows. Attend this session to find out what's in store for the infused products and concentrates side of the industry, including the challenges and regulatory changes coming down the pike as well as which types of products are growing in popularity.

#### 10:00am - 10:50am

#### Workshop: Using Data to Boost Your Business

Looking to get ahead of the competition? Look to data. This workshop will teach dispensary and retail store executives about how to unlock the information already available to your business to boost sales, bolster the bottom line and target customers more effectively. Learn what types of data you should be focusing on to make informed business decisions and how to get it. *Seating is very limited, and pre-registration is required with no additional charge to Main Conference attendees*.

#### 11:00am - 11:50am

#### Financing Workshop: Tactical Guide to Raising Capital

Landing investment money is critical for entrepreneurs looking to start companies and owners looking to expand. In this workshop you'll gain insight into the investor mind-set and learn how to find, connect, start and maintain the conversation with investors, and even how to avoid wasting time with window shoppers. Understand the foundational requirements of a competent and inspiring investor pitch with effective strategies for defending your valuation and shortening the decision making process to close. *Seating is very limited, and pre-registration is required with no additional charge to Main Conference attendees.* 

#### 12:00pm - 12:50pm

#### Banking Workshop: Finding and Keeping a Bank Account for Your Cannabis Company

Roughly 60% of cannabis companies don't have bank accounts for their businesses, given the reluctance of financial institutions to work with the marijuana industry. This workshop will start with a brief overview of the myths and facts surrounding banking in the cannabis sector, as well as a look at the risks that are show-stopping for most banks and credit unions. Then we'll dive into what it takes to get and retain a bank account, what type of financial institutions can and are willing to bank with the industry, how to prepare and nail your pitch and what pitfalls to avoid. *Seating is very limited, and pre-registration is required with no additional charge to Main Conference attendees.* 

**Ben Sillitoe**, CEO & Co-founder *Oasis Medical Cannabis* 

**Sara Batterby**, President & CEO *Hifi Farms* 

**Sundie Seefried**, President & CEO *Partner Colorado Credit Union*

All Fluence systems are designed and built in Austin, TX using state-of-the-art robotics and hand craftsmanship.

#### **Fogco Systems**

#### *Booth # 228* http://fogco.com

Fogco has been manufacturing high pressure fog systems for the greenhouse industry for over 25 years. Fogco specializes in humidification, cooling, sterilization, and odor control and carries a proprietary product range that includes the Revolution<sup>®</sup>/Evolution<sup>®</sup> Fog fans, specialty humidification controllers and an automated sterilizing cart. Fogco offers complete system design services and customized solutions for all of your fog needs.

#### **Forever Flowering Greenhouses**

#### Booth # 143 http://foreverflowering.net

Founded in sustainability and reduction of carbon footprints FFG supplies only the highest quality products to lower your monthly overhead while ensuring large yields and top quality flowers, vegetables and herbs. Forever Flowering's engineering is backed by over 40 years of experience and all of our structures meet strict NGMA greenhouse standards. Our professional grade greenhouses are constructed using sturdy designs and can withstand high wind and snow loads.

#### **Fritsch Milling & Sizing**

Booth # 735 http://www.fritsch-us.com

Since 1920, Fritsch has engineered & manufactured a wide range of milling & grinding systems for agricultural, food, and pharmaceutical applications. The P-19 Universal Cutting Mill sets a new standard for the Cannabis industry, allowing controllable particle size outputs, throughput of > 1 lb. per min. of dried flowers, heat mitigation, and easy cleaning with an all-stainless steel design. Come see the future of Cannabis milling & grinding!

#### **Futurola USA LLC**

#### *Booth # 1618* http://futurolausa.com/

Futurola was born from our very own Future Coffee Shop in Amsterdam in 1996. Growing and evolving to exceed industry standards, Futurola has developed a world-class product line of rolling and smoking accessories for everyone from consumers to producers. Futurola, The Future of Rolling

#### **Garden Tower Project**

#### *Booth # 2608* http://www.cannabistower.com

Canna Tower is a revolutionary concept in soil based, three dimensional, vertical growing. This provides maximum yields in small spaces through optimum nutrient availability/uptake along with generous root zone grow space. 50+ compact plants (Indica dominant) per Tower mature faster for more harvests and 6 Cu. Ft. growing media provide vigorous root development and resilient plants. Ball-bearing rotation provides light control and easy access. Waters in 30 seconds for minimal maintenance.

#### **Gardening Unlimited**

#### *Booth # 1616* http://gardeningunlimited.com

Gardening Unlimited Inc is one of the largest suppliers of greenhouse, nursery, hydroponics, and garden products in the United States. Providing everything from greenhouses and rolling tables to horticultural lighting, substrates, nutrients, water management, HVAC and all ancillary supplies, our veteran team of professional salespersons match clients with the resources their projects require and play an active role in managing the supply chain of goods for their ventures.

#### **General Cannabis**

#### *Booth # 148 & Suite B* http://generalcann.com

General Cannabis Corp is the all-in-one resource for the highest quality service providers available to the regulated Cannabis Industry. We are a trusted partner to the cultivation, production and retail side of the cannabis business. We do this through a combination of strong operating divisions such as real estate, consulting, security, financing and the distribution of important infrastructure products to grow facilities and dispensaries.

#### **Genius Extraction Technologies**

#### Booth # 1403

#### http://www.geniusextraction.com

We combine the latest technologies with in-depth consulting to provide the extraction industry with critical tools needed to safely and cleanly process their material. The complex and ever-changing nature of our industry requires up-to-date knowledge of process, procedure and understanding of local laws. From extraction, testing, and regulatory compliance, we provide a suite of solutions designed to streamline every aspect of processing so that the artist can focus on top quality extractions.

#### GeoShepard

#### Booth # 2512 http://geoshepard.com/

The GeoShepard Automated Cannabis Tracking Solution tracks every plant in every location at every stage...every 10 seconds. Starting with the plant, GeoShepard attaches a small, reusable, waterproof Bluetooth beacon. Then GeoShepard's network of low cost hubs geofence the facility to pinpoint the exact location of every plant. As the plants move from sprout to veg to flower to harvest, the GeoShepard system knows. Which means you know.

#### **GGS Structures**

#### Booth # 648

#### **Grow Lites**

Booth # 2500 http://growlitesllc.com/site/

GROW FILM Very Low Heat! Each 12"x 24" panel is populated with low-wattage LEDs driven at a moderate current to produce uniform light distributions at less than 95° F (cooler than your body temperature). Optimized PAR! Our standard distribution is optimized for "general" species growing. We've optimized flux output in both the vegetative and flowering spectrums. 2.7 \*mol/J! Grow Film delivers the industry's highest PAR efficacy; 50% higher than HPS and 22% greater than our closest LED competitor.

#### **Grow Louisiana LLC**

Booth # 1417

#### Growcentia

*Booth # 1313* http://mammothmicrobes.com

MAMMOTH P\* is an organic, liquid microbial additive that acts as a catalyst to maximize plant nutrient use efficiency to significantly increase cannabis yield. Our first product, MAMMOTH P\* is an organic, liquid microbial soil additive that acts as a catalyst to maximize plant NUE to significantly increase cannabis yield. MAMMOTH P\* can unlock bound nutrients, maximizing phosphorus and micronutrient availability to significantly increase plant nutrient uptake and cannabis yield by at least 16%.

Because Flavor Matters.™ Because Ingredients Matter.™ Because Safety Matters.™

# **BRING THE WHOLE FAMILY!**

# WWW.GOTBHANG.COM california@bhangchocolate.com

#### **Grower's Choice**

#### Booth # 1516 http://www.GrowerSC.com

Grower's choice is a US company operating out of Southern California, and a collaborative effort led by lighting and horticulture experts. We develop high quality, durable and affordable lamps which are designed to better meet the needs of plant cultivators. As a domestic company, we understand the needs of today's agricultural industry, and aim to provide effective lighting solutions for both large scale and hobbyist growers alike.

#### **Growers House**

#### Booth # 1315 http://growershouse.com/

Growers House is a family owned and operated hydroponics supply and indoor gardening center. It is our belief that old business practices are becoming a scarce commodity today. Our goal is to provide our customers a large selection, wholesale pricing, expert advice, comparison tests, and most importantly, customer service. There are no automated phones, robots, or drone-like employees here. We answer the phone all the time when we're open and respond to emails usually within the hour.

#### **Growers Supply**

*Booth # 633* http://growerssupply.com

With over 35 years of experience and over 300,000 customers, Growers Supply has been a trusted and valued supplier for all growing product needs for commercial marijuana production. We manufacture with the highest-quality materials, our greenhouses can be customized to meet any environment, widely used by commercial cannabis growers, who desire more control. Growers Supply offers you in-house financing and installation options, we are the one-stop shop for your cannabis cultivation needs.

#### **Guardian Data Systems**

#### Booth # 622

#### http://guardiandatasystems.com/

Guardian Data Systems is the premier provider of business and financial services to the cannabis industry. Thousands of legal cannabis businesses depend on us to provide access to comprehensive financial management, cannabis business consulting, technological resources, and merchant services. Guardian Data Systems also delivers "ROAR", the most complete cannabis software with Enterprise Resource Planning (ERP) and Point of Sale (POS) solutions vertically integrated across all your operations.

#### Hanson's Water Treatment

#### *Booth # 349* <u>http://hansonfertigation.com</u>

Hanson's Water Treatment - Water for growth Providing equipment/design for simple and complex water treatment issues. We saw a need for a nutrient system and we worked with our growers and developed a system. The system provides 7 zones with 21 recipes & mixes nutrients in exact water volumes delivered to each zone. Skid mounted, pre-piped and wired for simple installation w/3 levels of security access for adjustments and precise measuring of nutrient injection.

#### **Heidolph North America**

#### Booth # 620

#### http://www.heidolphna.com/#&panel1-7

Our benches help you save labor, water, fertilizer, fungal and disease treatments, time and money. Additionally, we offer related equipment, such as custom plant support systems, various valves and plumbing parts. Let our engineers design a solution for you. We carry a quality line of fertilizer injectors, as well as LED grow lights.

#### hygianutrients.com

# **The Game Changer!**

#### TRY fully water-soluble CBD with over 20X increase in bioavailability.

Our world-renowned scientists have worked for years to make credible, science-based CBD products a reality. These efforts have led to the discovery and refinement of breakthrough methods for producing CBD with maximum **Total Bioavailability**<sup>TM</sup>.

Typically, as much as 95 percent of ordinary CBD is destroyed on its way to the bloodstream. Then, only a fraction of what gets there yields any effects. Without efficient Total Bioavailability, ordinary CBD products are of limited use.

By applying sound scientific methods, our researchers in Israel at the Hebrew University of Jerusalem have made Total Bioavailability uniquely efficient. This is a truly groundbreaking achievement in using CBD to improve health and longevity.

Studies show that CBD coupled with our exclusive **nextCBD Technology™** does not degrade in the stomach, as does ordinary CBD. Also, our patent-protected nanotechnology greatly enhances the transport of CBD to the bloodstream and then to sites in the body where it can take effect, hence, **nextCBD Inside™**.

HYGIA Nutrients' vastly superior Total Bioavailability multiplies the strength of our products far beyond the reach of competitors. The profound advances made by doing credible science have positioned us to be the global leader in setting industry standards for quality, performance and Total Bioavailability. The implications of our advances for transforming CBD use are beyond calculation.

Fall 2016 Marijuana Business Conference & Expo Seed Lab Section Booth 2506–Rio Hotel, Las Vegas November 16-18, 2016 Contact: Chris Boucher (949) 510-9971

ANANDA Scientific

Credible Science • Credible Technology • Credible Results

#### **IntelliChoice Energy**

#### Booth # 635 http://www.iceghp.com

Indoor marijuana cultivation facilities are massive consumers of electricity. By employing the NextAire Gas Heat Pumps you do not shift electrical demand, you eliminate it. A NextAire system uses 90% less electricity than a same sized electric cooling system which results in a tremendous operating cost advantage. Advanced control systems are also a benefit, giving the end user single point PC climate control for the facility with alarms and email alerts to protect their crops.

#### Isolate Extraction Systems Inc.

#### Booth # 1716 http://www.isolatesystems.com/

Isolate Extraction Systems Inc. mission is to manufacture safe and efficient machines while nurturing and maintaining life-long client relationships. By developing efficient and affordable technology for the botanical oils extraction industry, Isolate Extraction Systems Inc. brings high quality, medical-grade extraction tools to market and raises the bar for SCFextraction equipment and its operation. We focus on the constant development and reinvention of our systems products and services.

#### Jane

*Booth # 600* <u>http://www.trustjane.com</u>

Get in touch with us for a free website consultation to see how we can help you maximize your online visibility.

# Obscura

### From light restriction to total blackout

## The ideal curtains for greenhouse light deprivation

For controlling day length, multi-layered Obscura greenhouse curtains from Svensson are the ideal light deprivation solution, providing 99.9% blackout– enough for even the most sensitive plants. Maximize grow space, control flowering and humidity, and cut residual light during critical times for consistent growth and quicker turns.

Multi-layers allow more options as the top and bottom of the screen can have different surfaces. Aluminum on the top, for example, provides the greatest energy saving at night, whereas white provides better cooling in sunny weather. White is also useful as a bottom layer for intensifying light inside the greenhouse, whereas black is better for absorbing and restricting interior light.

Visit us in booth 539 to learn more about Obscura blackout curtains.

#### NORML

#### *Booth # 836* http://www.norml.org

A Voice for Responsible Marijuana Smokers Since its founding in 1970, NORML has provided a voice in the public policy debate for those Americans who oppose marijuana prohibition and favor an end to the practice of arresting marijuana smokers. A nonprofit public-interest advocacy group, NORML represents the interests of the tens of millions of Americans who smoke marijuana responsibly.

#### NuAxon BioScience

#### *Booth # 749* <u>http://nuaxontech.com</u>

We design and build CO2 extraction equipment, for the last 15 years we have operated multiple CO2 extraction plants of our own design, logging over 200,000 hours of experience on 300+ herbs, leading to continuous improvement in extraction times, yields and extract profiles. We improve your profitability by maximizing the speed of extraction while preserving quality, flavor and aroma. Our equipment is made for production and designed to produce the most extract in the least amount of time.

#### **NUUO Surveillance Solutions**

#### *Booth # 139* <u>http://www.nuuous.com</u>

NUUO Inc. is one of the premier providers of IP Video Surveillance Equipment serving the Cannabis Industry. Video recording solutions that can be scaled from one camera to thousands, NUUO can meet your state regulatory requirements for any size facility. The Video Management Software is intuitive and easy to use while the Total Cost of Ownership is manageable to fit within most budgets. Come see us at Booth 139 and enter for a chance to win a Video Recorder.

#### 0.penVAPE

Booth # 701 http://www.openvape.com

O.penVAPE is the largest cannabis brand in the United States, with licenses in nine states. It is recognized as a leader in plant extraction technology, sales, marketing and distribution strategies for the legal cannabis industry.

#### **02 Grow/Grow Patrol**

Booth # 623 http://o2grow.com

The O2 Grow patented technology elevates the dissolved oxygen levels 50% more than air stones through electrolysis. The O2 Grow technology actually "manufactures" 100% pure oxygen by separating the water molecule. It's well documented that oxygen is needed to help activate microbes, prevent root disease and ultimately increase yield. Increased oxygen to the root zone has shown to increase the speed of plant growth, size of the root ball, number and size of flowers, and nutrient uptake.

#### o2VAPE

#### Booth # 128 http://o2vape.com

o2VAPE<sup>™</sup> is a USA Veteran owned company and has been providing consumers with high quality portable vaping products since 2013. We are the ORIGINAL buttonless vape pen, making it the most mobile and discreet vaping product available to anyone. We have a no questions asked LIFETIME WARRANTY! Have question's regarding our products? o2VAPE<sup>™</sup> is here for you! It is our goal to make sure that YOU, our customers, are completely satisfied with the o2VAPE<sup>™</sup> products. We ALWAYS answer our phone and email!!

#### **Oaksterdam University**

#### Booth # 1705

#### http://www.oaksterdamuniversity.com

America's 1st cannabis college was founded in 2007 to provide students the highest quality training for the cannabis industry. OU has since graduated nearly 25K students from over 30 countries. Learn from over 150 faculty members & 9 academic departments. Horticulture Professors have a minimum of 20 years experience, alongside the only hands-on student lab in the world. We offer 4 month semesters & 2-4 day seminars. Tuition starts at \$35/credit hour & remember OU doesn't just teach you the law, we helped write it.

#### OCO Labs

#### Booth # 1308 https://ocolabs.com/

The SuperC<sup>™</sup> supercritical CO2 extraction system offers a single expandable solution for small batch producers, inline batch testers, and even home extraction enthusiasts. The OCO Labs team has over 30 years of experience working with CO2 and other compressed gases, and we are the Oregon based manufacturer of the world's most accessible CO2 extractor, the SuperC<sup>™</sup>. Our tabletop CO2 extraction systems are now in homes and labs across ten countries.

#### **Orange Photonics**

#### *Booth # 1420* http://www.OrangePhotonics.com

Portable, tough and low cost, the LightLab marijuana potency analyzer brings analysis out of the lab and into grows, sales counters and infused product production centers. Accurate, repeatable potency results from an affordable "Lab in a Box" makes quality control easier than ever. Boost your revenue by producing consistent, optimized product through applied real-time data from the LightLab. Simple to use - accurate and repeatable results!

#### **Payment and Dispensing Systems Ltd**

#### Booth # 743 http://www.greenvault.biz

#### **Total Energy Group Inc.**

Booth # 1719

#### http://www.totalenergygroup.com

Total Energy Group provides high quality light deprivation systems. With over 30 years of experience, we will custom design light dep. systems for your greenhouse. We offer installation and supervision for a professional installation that will give you 100% darkness in the greenhouse. We also offer additional products to control the climate in the greenhouse: Heaters and HAF fans, climate computer, water storage, water sterilization and co2 dosing.

#### **Transcend Lighting**

#### Booth # 732 http://www.transcendlighting.com

Transcend Lighting is an LED lighting technology company dedicated to energy efficiency in the production of cannabis. The company's LED T5 lamp is 45% more energy efficient than traditional T5 fluorescent lamps. The LED T5 has been specifically designed for cannabis production in its vegetative growth stage. The LED T5 is a drop-in replacement for fluorescent T5 - there is no rewiring required or ballasts to be changed. The product is made in America, and comes with a 5-year warranty!

#### **Transcendental Mints**

Booth # 1711 http://www.tdmints.com/

#### Treez.io

Booth # 232 & Suite C http://treez.io

Treez is an enterprise software platform that optimizes and automates cannabis dispensary operations, creating a cooperative ecosystem that allows operators to continually improve every aspect of their business, from employee management, to inventory control, to patient hospitality. By automatically enforcing best practices across the platform and collecting valuable data from every corner of your business, Treez offers something wholly unique to operators, large and small.

#### Trimpro

#### Booth # 1322 http://www.trimpro.com

Anyone involved in the robust MJ business, whether medical or recreational, needs to know about the trimming process. Founded in 2000, Trimpro is the original inventor of trimming machines. We have a family of nine (9) models, and counting, to accommodate any harvest requirements. Our machines are built to CSA and CE Standard using North American parts and components. Patented in the US, Canada, the EU and Australia, the Trimpro line is proudly made in Canada. Come by booth #518 for a chat.

#### Viridian Staffing

#### Booth # 729 http://www.ViridianStaffing.com

Viridian Staffing is the first professional, fullservice staffing and recruiting agency dedicated exclusively to all sectors of the cannabis industry (producers, processors, retailers and ancillaries). Businesses rise and fall based on the strength of their talent. Why hire a novice to find you an expert when our highly experienced recruiters have been delivering Fortune 500-100-level results at start-up prices since 2013.

#### Vital Garden Supply

#### *Booth # 1513* <u>http://vitallandscaping.com/</u>

Vital Garden Supply only sources products that are natural, organic and sustainable. Our products are lab tested with a focus on Clean Green and CDFA organic certifications. We manufacture our own product line under the "Vital Garden Products" label as well as distribute many other top quality organic products. We also sell Next Gen and Conley greenhouses with a focus on light deprivation models.

#### VIVOTEK

*Booth # 634* http://vivotek.com

VIVOTEK Inc., has quickly taken its place as a technology leader and total solution provider in the IP video surveillance industry. VIVOTEK delivers total IP video surveillance solutions that embody the complete integration of video codecs, optoelectronics and networking technologies.

#### VRE

Booth # 151 http://www.vresystems.com

Our Growth Carts, Light Deprivation Systems, and Drying Racks are used in every horticultural situation. A VRE curtain system is CUSTOM designed to fit YOUR greenhouse - not all curtain systems are. To get the best yield, you need the best system - Industry experts know the VRE Difference. Innovation, Quality, and Customized Service - VRE Systems is the industry leader for a reason - call us to find out more, or better yet, ask any of our satisfied customers about the VRE Difference

#### Wadsworth Control Systems

#### Booth # 121

http://www.WadsworthControlsCannabisGrow. com

Advanced thinking, it's what creates innovative businesses, and in the case of Wadsworth Control Systems, an entire industry. As the first name in greenhouse automation in North America, we continue to embrace the freedom to imagine and invent new solutions and technology. We are proud to introduce Seed, the industry's first touchscreen environmental control. We have been designing light dep systems for over 40-years. We have your solution.

#### Waters/Vicam

#### Booth # 614

#### http://www.waters.com and www.vicam.com

Waters Corporation creates business advantages for laboratory-dependent organizations by delivering scientific innovation to enable customers to make significant advancements. Waters helps customers make profound discoveries, optimize laboratory operations, deliver product performance, and ensure regulatory compliance with a connected portfolio of separations and analytical science, laboratory informatics, mass spectrometry, as well as thermal analysis.

#### Websafe

#### *Booth # 238* http://www.apsar.com

WebSafe is a scalable cash management and control solution that will provide end to end cash tracking and accountability. Websafe provides a hardware and software based cash management and control solution designed to meet the needs of the Cannabis Industry.

#### WeedShops

#### *Booth # 2711* http://www.weedshops.com

Weedshops.com and Weedstrains.com are the most powerful keyword domain names in the cannabis industry. Weedshops.com is currently receiving thousands of hits from the internet every day and as each day passes, our traffic increases. We are committed to sharing that traffic with all dispensaries and as we grow we intend to provide an amazing experience for businesses and consumers alike. Claim your FREE listing and FREE product menu and start editing your information right away.

#### Welch Vacuum

#### Booth # 1506 http://www.welchvacuum.com

Welch Vacuum provides application specific vacuum solutions, particularly in purge ovens and short path distillation. Trust our application experts; they have decades of experience supporting laboratory research and pharmaceutical production.

#### West Coast Distributors

#### Booth # 1310

#### http://www.westcoastdistributors.com

Offering unique, high-quality lifestyle products to discerning dispensaries is our primary focus. West Coast Distributors is women-owned; we understand what consumers want & retailers need. We provide an in-person, consultative approach for buyers seeking to differentiate their stores. With easy no order minimums and agile new-product introductions, partnering with us alleviates the anxiety of bringing world-class retail products to your shelves.

#### **Wilson Safe Company**

#### *Booth # 714* http://wilsonsafe.com

We are a National Digital Sign/Menu Board company based in Nevada. We help you build and drive your content inside your Dispensary with our Digital Solutions.

#### Zuni

#### *Booth # 720* http://www.wildfirecanna.com

Artfully Cultivated - Wildfire is cannabis flower grown sustainably in small batches to ensure the highest quality. Wildfire promises to be the premier source of 100% natural cannabis products. Wildfire Estate is Oregons largest Cannabis Farm. This 116 acre estate farm will be open to the public in 2016, boasting a visitors center, farm tours and even a special events center that will be available for weddings, parties, picnics and other events.

#### **ZWART Systems**

#### *Booth # 214* <u>http://www.zwartsystems.ca</u>

From concept to completion, we can provide you with a Irrigation System that will meet all of your needs and increase your productivity.

## **New This Year in the Expo Halls!**

## The Dispensary Experience powered by MJ Freeway

Experience "Immerse" sponsored by MJ Freeway, the first-ever pop-up cannabis operation of the entire vertical from retail/dispensary, to cultivation, to processing, to back-of-house operations.

This theater-style exhibit will showcase ideal best practices and innovative solutions for the industry, illustrating modern and advanced applications of technology, design, security, and customer interaction.

Hosted on the main stage in the Brasilia Hall. Open to all registered Main Conference and Expo & Meals attendees during Expo Floor hours:

- Wednesday, Nov 16, 11am 6pm
- Thursday, Nov 17, 11am 6pm
- Friday, Nov 18, 11am 4pm

Note: No THC or CBD products will be available for purchase. This model shop is for business educational purposes only.

#### **The Seed Lab**

Come see the newest arrivals to the cannabis industry! Exhibits from 30 companies fill this exhibit hall dedicated solely to new businesses.

To qualify for exhibit space in the Seed Lab, businesses must have been established after August 2015 or have received initial funding within the past 12 months. These exhibitors are the newest innovators on the scene; with technology, products and services tailored to this burgeoning industry.

This exhibit, located in Tropical, is open to all registered Main Conference and Expo & Meals attendees during Expo Floor hours:

- Wednesday, Nov 16, 11am 6pm
- Thursday, Nov 17, 11am 6pm
- Friday, Nov 18, 11am 4pm

#### **Exhibitor Hospitality Suites**

For the first time at MJBizCon: 8 leading cannabis companies will host clients and MJBizCon attendees in private suites just steps from the Expo Hall. Check out the showroom style exhibits in private rooms along the corridors, and take advantage of the unique setting to get input on your confidential questions and business plans.

Featured companies hosting Exhibitor Hospitality Suites:

Suite A: MedMen Suite B: General Cannabis Suite C: Treez.io Suite D: United Cannabis Group Suite E: PuraEarth Concentrates Suite F: ExtraktLab LLC Suite X: Poseidon Asset Management LLC Suite Y: B/R Instrument Corp.

Hospitality Suites will be open during Expo floor hours. Access to the Hospitality Suite areas is open to all registered MJBizCon Expo & Meals Only and Main Conference attendees. Access to individual Exhibitor Hospitality Suites is controlled by the hosting company.

### **SOLUTIONS & PRODUCTS** Tailored to fit your business needs

The majority of states comprised within the United States now contain at least some form of medical or adult use cannabis law. As state markets mature, client needs shift. Priorities in this new and emerging industry are quickly transitioning to traditional business challenges such as operational efficiency, quality assurance, regulatory compliance and market penetration. In addition, operators still face the ongoing unique challenges in the medical and/or adult use cannabis markets such as 280E and barriers to banking. American Cannabis Company provides a purpose-built mix of cannabis consulting and ancillary products to meet your ongoing and future needs. When it's time to level up, we provide the catalyst.

### Women's Marijuana Business Breakfast

Thursday, November 17, 2016 8:00-9:30am Location: Palma

Women are more likely to hold executive titles in every major sector of the cannabis industry than in the general workforce at large. This indicates that women have more opportunities to climb the ladder in the marijuana industry and are making quicker progress toward those goals than females in all other industries as a whole in the U.S.

Our annual fall women's networking breakfast is dedicated to the unique challenges and opportunities for female professionals and entrepreneurs in cannabis. You'll meet your peers, share war stories, and discuss solutions to challenges that we as women face. Plus, be inspired by some of the most successful women in cannabusiness today!

Thursday, November 17, 2016 6:00-8:00pm Location: Voodoo Beach Pool

Join us poolside at the Rio All-Suites Hotel & Casino for an evening of celebration and networking, and help raise money for advocacy organizations leading the fight to expand marijuana legalization. Without their efforts, the business opportunities would not exist – and it's time to give back to the cause.

Now only \$50 to attend -- 100% of your ticket fee will be donated to the 6 national advocacy groups being supported :

- Americans for Safe Access (ASA)
- National Cannabis Industry Association (NCIA)
- Drug Policy Alliance (DPA)
- National Organization for the Reform of Marijuana Laws (NORML)
- Marijuana Policy Project (MPP)
- Students for Sensible Drug Policy
   (SSDP)

Your direct donation is made possible by our #MJBizCon Mixer sponsors and *Marijuana Business Daily.* 

Your #MJBizCon Mixer entry includes a poolside drink, hearty appetizers and live entertainment; plus, networking with more than 2,500 cannabis industry business leaders and financiers.

#### New Investor Networking Breakfast

#### Friday, November 18, 2016 8:00-9:30am Location: Palma

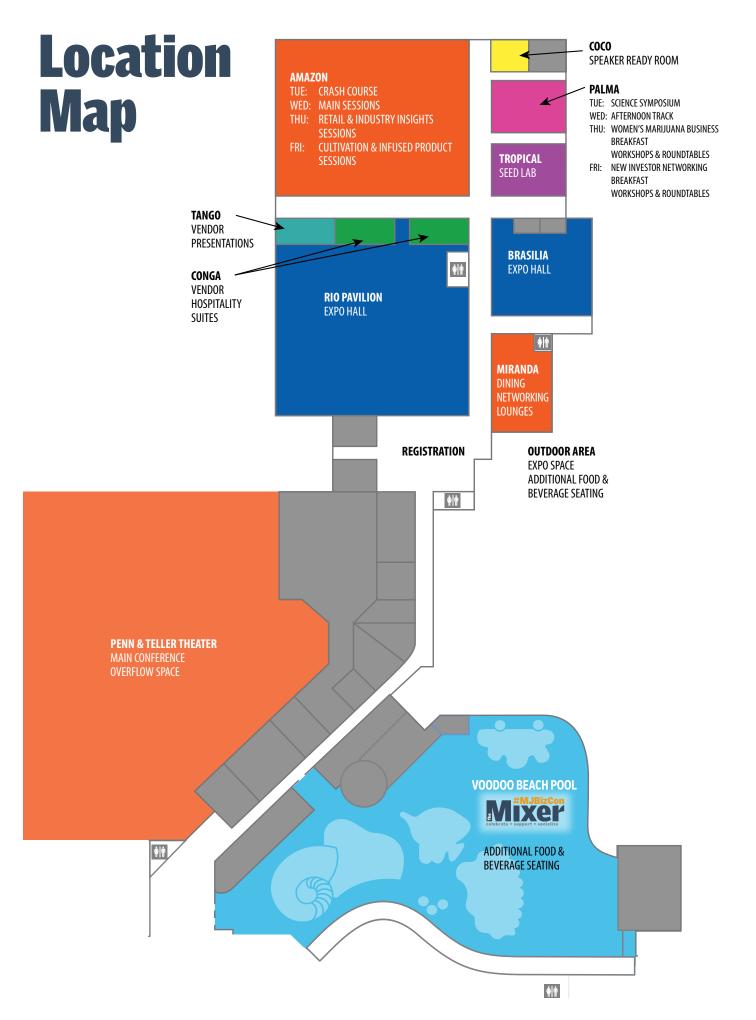

If you're looking to invest in a privately held cannabis company – or a cannabis-related business – this exclusive breakfast is your first stop.

You'll get an overview of the challenges you'll face and gain ideas on how to overcome them. Plus, you'll network with other financiers and round out your Conference education with content tailored to your area of expertise.

Although the cannabis industry is a hot investment opportunity, it's fraught with unique challenges such as complying with federal and state laws and placing funds in an industry with highly constrained banking regulations. Newcomers will need all the help they can get.

Note: This breakfast is NOT for public stock market investors. Its focus is on early and mid-stage loans and equity investments into privately-held organizations and newer investors looking to deploy capital.

Note: All add-on events will be held at the Rio All-Suites Hotel & Casino. You do not need to purchase a conference registration in order to attend. For ticket information, please see a Registration Staff Member.
